The 7th International Conference on Chemical Looping

Dear Industry Leaders,

We invite you to be a catalyst in shaping the future of clean energy solutions at the 7th International Conference on Chemical Looping, to be held at The Banff Centre in Banff, Alberta, Canada, from September 29th to October 3rd, 2024. As we navigate the path towards achieving net-zero goals by 2050, your participation and support are paramount.

Why Sponsor the Conference?

Connect with Innovators: Engage with leading researchers, technology developers, and end-users driving advancements in chemical looping technology. Network with the experts shaping the future of clean energy.

Insights into Research: Gain unparalleled insights into the latest developments in chemical looping research. Understand how this transformative technology is poised to play a pivotal role in meeting global net-zero goals.

Support Student Research: By sponsoring the conference, you directly contribute to the development of the next generation of innovators. Help support students in their ongoing research endeavors, fostering a collaborative environment that propels the industry forward.

Visibility & Recognition: Showcase your commitment to sustainability and innovation. Gain exposure through event signage, program mentions, and exclusive sponsorship recognition, ensuring your brand stands out.

Conference Chairs

Professor Nader Mahinpey

Ph.D., P.Eng., FCIC, IRC & Schulich Chair
University of Calgary

Scott Champagne

M.A.Sc.,
Senior Research Engineer,
CanmetENERGY-Ottawa
Natural Resources Canada /
Government of Canada
